# **DTP T HD2 4K 230**

DTP TRANSMITTER FOR HDMI WITH INPUT LOOP-THROUGH

The Extron DTP T HD2 4K 230 transmitter sends HDMI with embedded audio, plus bidirectional control signals up to 230 feet (70 meters) over a shielded CATx cable to Extron DTP®-enabled products. The HDCP-compliant transmitter includes several integrator-friendly features that streamline installation. Its compact enclosure enables discreet installation in a wide variety of applications.

- Transmits HDMI plus control up to 230 feet (70 meters) over a shielded CATx cable
- Supports computer and video resolutions up to 4K, including 1080p/60 Deep Color
- ▶ Buffered HDMI input loop-through
- Extron XTP DTP 24 shielded twisted pair cable is strongly recommended for optimal performance
- DTP® output is compatible with HDBaseT-enabled devices
- Bidirectional RS-232 and IR passthrough for AV device control
- Remote power capability
- Supported HDMI specification features include data rates up to 10.2 Gbps, Deep Color up to 12-bit, 3D, and HD lossless audio formats
- ▶ Key Minder®
- **▶ EDID Minder®**
- Compatible with all DTP 230 Series receivers and DTP-enabled products
- ▶ Rack-mountable 1" (2.5 cm) high, quarter rack width metal enclosure
- Highly reliable, energy-efficient external universal power supply included

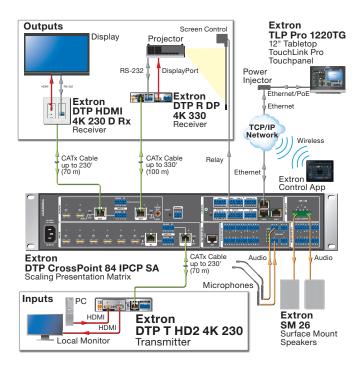

#### DESCRIPTION

The Extron **DTP T HD2 4K 230** is a transmitter for sending HDMI with embedded audio, and bidirectional RS-232 and IR signals up to 230 feet (70 meters) over a shielded CATx cable to Extron DTP-enabled products. It provides one HDMI input with loop-through to support local monitoring of digital video, and one DTP output. The DTP T HD2 4K 230 supports video signals at resolutions up to 4K, including 1080p/60 Deep Color. It offers many integrator-friendly features such as EDID Minder, Key Minder, bidirectional RS-232 and IR pass-through for remote AV device control, and compatibility with HDBaseT-enabled devices. The compact enclosure size and remote power capability make the DTP T HD2 4K 230 ideal for discreet placement in lecterns, beneath tables, or wherever needed to meet application requirements.

To enhance and simplify integration, the DTP T HD2 4K 230 includes automatic input cable equalization and automatic color bit depth management. It also offers an HDBaseT output mode for sending digital video and embedded audio, plus bidirectional control signals to any HDBaseT-enabled display. The DTP T HD2 4K 230 can be integrated with an Extron DTP CrossPoint® Presentation Matrix Switcher, or other DTP-enabled products to support sources at remote locations.
